

REMARKS

This amendment supplements applicants' prior amendment, entitled Response to Restriction Requirement, dated September 3, 2002.

The prior amendment, which was a response to a restriction requirement dated July 3, 2002, elected invention Group I, claims 1-26, for prosecution in this application, and canceled remaining claims 27-93.

The present amendment cancels original claims 1-26 and adds new claims 94-115. The new claims focus on aspects of the invention of Group I that applicants would like to patent first, subject to their right to pursue the original and/or additional claims in continuation applications. The new claims are supported both by the original claims in Group I and by the Specification, as illustrated without limitation in the following table:
